Collect Dividends and Replace Your Paycheck

The biggest worry retirees have is running out of money.

Nobody wants to be a burden on their children or the state. And most would cringe before taking a handout from a charity.

Yet the real possibility of being put in a tough spot exists.

Millions of Americans are at risk of outliving their retirement dollars and being left to survive on social security, handouts from their children and grandchildren, charity, and the kindness of strangers.

Don't let that happen to you!

The best way I know how to work towards a comfortable retirement is to make sure your money is working hard on your behalf.

That's right, put your money to work for you by investing in dividend stocks.

The best part of investing in dividend stocks is walking to your mailbox and collecting that fat dividend check.

If you do it right... and invest in the right types of stocks and ETFs, you can literally replace your monthly paycheck with a monthly dividend check.

Once your dividends are bigger than your paycheck your life is yours – you can do what you want.

However - there is a problem...

Some dividends are paid annually, and others quarterly. It makes it tough to get one giant sum of money and not rush out and spend it all.

You've got to have discipline when you get paid like that!

But there's an easier way...

Buy stocks that pay monthly dividends! That's right, every month they'll send you a check – a nice fat check. It's like getting a paycheck in the mail every month.

No need to budget, no need to worry about stretching your dollars.

The monthly dividend check is the answer!

About Monthly Dividend Stocks

Let me start out with a warning...

Not every stock is a great investment. **Some can be duds.** *It's a fact of life.*

And just because a stock pays a dividend – either annually, quarterly, or monthly – does not make it a guaranteed great investment.

Remember – Dividends are never guaranteed. They can go up and down in the blink of an eye – and sometimes they disappear entirely!

So what follows is the massive list I spent hours upon hours building of stocks that pay dividends monthly.

Before you buy any of these, make sure you do your own diligence. This isn't a list of recommendations – it's a starting point for your research.
